EDUCATION

Penn State University, State College, USA
Ph.D., Learning Design and Technology (2025)
Department of Learning and Performance Systems
Dissertation: "*The Impact of Scripted Roles on Learner Engagement and Knowledge Construction Assignment in Asynchronous Discussion: A Comparative Study of Structured vs. Unstructured Collaborative Learning*"
Advisor: Priya Sharma, Roy Clariana

Lesley University, Cambridge, MA, USA
M.Ed., Curriculum and Instruction (2014)
Department of Education
Thesis: "*Consideration in the improvement of Korean students' English proficiency and their perceptions to public English education*"

Hanyang University, South Korea
B.A., French Language and Culture (2009)
Minor: English Language and Culture
Department of Liberal Arts

PUBLICATIONS

Lee, M., Clariana, R. B. (2022). The influence of external concept structures on an individual's knowledge structures. Educational Technology Research and Development (SSCI, Scopus Q1). 70(5), 1657-1674. http://dx.doi.org/10.1007/s11423-022-10144-6

Jeong, J. & **Lee, M**. (2017). Hanyang MOOC Flipped learning guidebook, Hanyang University, Seoul.

In revision

Sharma, P, **Lee, M**. (in revision). The quality of student cognitive engagement across different levels of

social engagement in online discussions. Education and Information Technologies.

Lee, M., Clariana, R. (in revision). Implementing sociograms in online learning: examining their influence on community of inquiry elements. Learning Environment Research.

Under Review

Lee, M. (under review). Making dropout risk transparent: early academic, financial, and support signals as a foundation for AI enhanced early warning systems. Urban Education.

Lee, M., Sharma, P., Clariana, R. (under review). Which roles bridge, centralize, or synthesize collaboration in online courses? - Linking network metrics with knowledge construction in asynchronous discussions. International Journal of Computer-Supported Collaborative Learning.

Lee, M. Sharma, P., Clariana, R. (under review) When does structure matter? social and cognitive outcomes in role-assigned vs. organic online groups. Learning and Instruction.

Lee, M. Sharma, P., Clariana, R. (under review). Predicting assigned roles and knowledge-construction processes in asynchronous discussion: a course-scale feasibility study. Educational Technology Research and Development.

RESEARCH & PROFESSIONAL EXPERIENCE

Director   Feb 2025- Current
Institutional Data Analytics, Office of Institutional Effectiveness
University of Houston, Downtown

- Lead institution-wide research and analytics initiatives to inform student success, retention, and equity.
- Develop predictive and temporal models using multi-year institutional data to identify early signals of dropout and enrollment trends.
- Collaborate with advising, student affairs, and academic leadership to translate analyses into changes in support structures and outreach practices.
- Contribute analytic components to grant proposals focused on data-informed interventions and equity in student outcomes.

Graduate Research Assistant   June 2022 – Dec 2024
Leonhard Center for Engineering Education
College of Engineering, Penn State University

- Conducted quantitative data analysis to evaluate the effectiveness of VR applications in educational settings, ensuring data quality and reliability
- Analyzed student preferences and learning outcomes for the NSF-Boeing PEER Grant project on online learning in advanced manufacturing and data science
- Collaborated with faculty to interpret data analysis results and provided insights to guide enhancements in course design and instructional strategies

Funded Projects:

- **Leonhard Center Educational Innovation (2024)** – VR applications in mechanical engineering (PI: Cortes, Gregg, Pauley).
- **NSF–Boeing PEER Grant (2023–2024)** – Quantitative survey analysis for engineering online learning (PI: Spiegel).

NSF–REU Project (2022–2024) – Integration of biology and materials in chemical engineering (PI: Velegol & Gomez).

Graduate Research Fellow   Aug 2018 – May 2022
World Campus Learning Design
World Campus, Penn State University
- Collaborated with faculty and learning designers to design and develop online course content.
- Conducted needs assessments to identify instructional goals and develop effective course materials tailored to diverse learning environments
- Applied social network analysis to study collaborative learning dynamics, using findings to inform course design and improve group interactions in online discussions
- Utilized natural language processing techniques to perform lexical network analysis on synchronous discussions, enhancing understanding of student discourse patterns
- Designed and refined asynchronous discussion activities and rubrics to improve student engagement and learning outcomes

Researcher   Dec 2017 – July 2018
Global Education Center for Engineering, Seoul National University
- Designed and implemented STEM education programs for middle school students, integrating technology to enhance learning outcomes
- Managed flipped classroom projects using video conferencing tools, enabling interactive and student-centered learning
- Produced evaluation reports with actionable recommendations for program improvement, contributing to the center's strategic goals

Funded Projects:
- **Korean Ministry of Education, Science and Technology**- Engineering experience program for middle school students (2018) – help designing and implement STEM education integrating technology such as Arduino

Researcher
Smart Center for Teaching and Learning, Hanyang University   Feb 2015– March 2016
- Organized and facilitated monthly workshops on innovative teaching strategies for technology- enhanced education, receiving high satisfaction ratings from participants
- Assisted in adapting and localizing a Futurelearn MOOC for a Korean audience, improving accessibility and relevance for local learners
- Co-authored a flipped learning guidebook in collaboration with Tokyo University, sharing best practices in international contexts

TEACHING & COURSE DESIGN

Teaching Assistant
'Seminar for Engineering Teaching Assistants'.   Fall 2023, Spring 2024, Fall 2024
College of Engineering, Penn State University
- Graded asynchronous discussion posts and collaborative projects, providing specific feedback aligned to course rubrics.

- Co-taught in face-to-face and synchronous online classes, facilitating group work and class discussions.
- Designed structured asynchronous activities informed by Louvain-based group detection outputs to guide team interaction and participation.

Research-based Course Designer

'Introduction to Business Information Systems'   Fall 2021, Spring 2022

World Campus, Penn State University
- Designed two modules for enhancing asynchronous discussions in the *'Introduction to Business Information Systems'* course, which were formally accepted into the curriculum

Teaching Assistant

'Global Engineering Technology Exchange'   Fall 2017, Spring
2018 College of Engineering, Seoul National University
- Managed IP-based video conferencing for "flipped classroom" models and assisted collaboratively designed engineering MOOC classrooms with Tokyo university

Course Design Assistant

'Korea in a Global Context'   Fall 2016

Smart Center for Teaching and Learning, Hanyang University
- Assisted in refining MOOC (Futurelearn) course materials to align with pedagogical objectives, ensuring both quality and relevance

English Instructor

Daejin Woman's High School | Grade 11   2014–2015
- Developed and implemented curricula to prepare students for college entrance exams, emphasizing critical reading, writing, and comprehension
- Conducted mock exams and provided tailored feedback, improving students' readiness for high- stakes assessments
- Led collaborations with other instructors to align lesson plans and introduced student-centered learning strategies

English Instructor

Garak Middle School | Grades 7–8   2009–2011
- Taught grammar, vocabulary, and conversational fluency using interactive teaching strategies and multimedia resources

PEER REVIEWED PRESENTATIONS

Lee, M., Sharma, P (2025, April). Predicting roles and knowledge construction processes in asynchronous discussion using machine learning, AERA, 2025

Cortes, D., Gregg, A., **Lee, M.,** Pauley, L., Osunbunmi, I (2024, October). By students, for students: development of custom virtual reality applications for teaching and learning in engineering

courses, accepted as a presentation, FIE (Frontier of Education), Washington DC, 2024

Gregg, A., & Cortes, D., & Osunbunmi, I. S., & Pauley, L. L., & **Lee, M.** (2024, June), Designing and evaluating virtual reality applications for a machine design course, accepted as a presentation, ASEE Annual Conference & Exposition, Portland, Oregon. 10.18260/1-2--47139

Lee,M., & Cutler, S., & Zappe, S. E., & Spiegel, S., & Osunbunmi, I. S. (2024, June), Student preferences and performance in active learning online environments. accepted as a presentation, ASEE Annual Conference & Exposition, Portland, Oregon. 10.18260/1-2—48018

Lee, M., Roy B. Clariana (2024, April). Implementing sociograms in online learning: examining their influences on community of inquiry elements, accepted as a poster, AERA, Philadelphia. 10.3102/2107692

Lee, M., Sharma, P. (2023, April). Applying community detection algorithms to examine group formation in online discussions, accepted as a presentation, AERA, Chicago https://www.aera.net/Publications/Online-Paper-Repository/AERA-Online-Paper-Repository-Viewer/ID/2107692

Lee, M., Sharma, P. (2022, October). Applying the Louvain algorithm to examine emergent groups in asynchronous online discussion, accepted as a presentation**,** College of Education Research Conference, State College

Clariana, R., **Lee, M**. (2022. October). An OER tool for writing-to-learn in undergraduate architectural engineering, accepted as a presentation, College of Education Research Conference, State College

Lee, M., Garbrick, A., Clariana, R. (2021, November). Knowledge convergence in collaborative concept mapping, accepted as a presentation, Association for Educational Communications & Technology (AECT), Chicago

Lee, M., Garbrick, A., Clariana, R. (2021, November). Lexical network analysis on synchronous discussion, accepted as a poster, Association for Educational Communications & Technology (AECT), Chicago

Lee, M., Clariana, R. (2021, November). Students' perceptions in online courses with the Community of Inquiry Framework, accepted as a presentation, Association for Educational Communications & Technology (AECT

Lee, M., Garbrick, A., Clariana, R. (2021). Knowledge convergence in collaborative concept mapping, Association for Educational Communications & Technology (AECT), accepted as a presentation, Chicago, Selected Research and Development Papers Vol1, 106-120

Lee,M., (2020, November). Social network analysis on online collaborative knowledge construction, accepted as a poster, Association for Educational Communications & Technology (AECT), Virtual

Lee, M., Clariana, R. (2019, November). Knowledge structure measurement of cross-

classification table as a visual external representation, accepted as a poster, Association for Educational Communications & Technology (AECT), Las Vegas

Lee, M., & Jiyeon Lee. (2016, October). Examining affective variables within the EFL

learner's interlanguage system, accepted as a presentation, KEFL (Korean Association of English as Foreign Language), Seoul

FELLOWSHIPS & GRANTS

Penn State World Campus Graduate Research Fellowship	Fall 2018 - Spring 2022
Penn State World Campus Learning Design, Summer Research Fellowship	2019 - 2021

Penn State UPAC Graduate Student Travel Grant   2021, 2023

HONORS & AWARDS

AERA SIG Instructional Technology Graduate Student Paper Award   2024
Penn State College of Education Graduate Student Travel Award   2019, 2020, 2021, 2023, 2024

CERTIFICATES

TESOL Certificate, University of California at San Diego.   2009
Massachusetts ESL Initial license (expired).   2014
